

**Great Looks—  
Easy Installation!**

## Introducing the Easiest Hino Simulators and Hub Covers to Install.

Installation is simple with our new Patent Pending Turn & Lock Mounting System which is D.O.T. user-friendly.

- No special tools required.
- No lug nuts to remove.
- Simply Turn & Lock!

- RealWheels “Cover-Up” Hub Covers are the only system that covers the axle and the lug nuts.

**See details on back...**

## Simulators and Hub Covers Feature:

- Highest-quality, non-magnetic, heavy-gauge stainless steel—will not rust, pit, corrode or turn yellow.
- Polished and buffed to a mirror-shine finish.
- Easy Turn & Lock installation.
- Made in America.
- All available with a durable black powder-coated finish.
- Hino Center Logo available.

### Stealth Series

### E-Series

### American Road Series

## Simulators Available in Two Styles

- E-Series feature extruded holes and lug nut covers.
- American Road Series feature round holes and integrated bump-out design, makes cleaning simulators easy—no lug nuts to wash around.

## “Cover-Up” Hub Covers

- The only system that covers the axle and the lug nuts.
- Integrated bump-out design, makes cleaning wheels easy—no lug nuts to wash around. Low profile design.

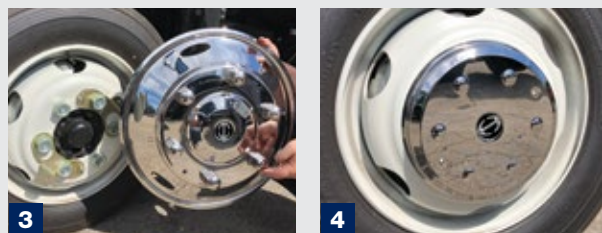

## Easy Installation with only a screwdriver and 1/2” wrench

Place the larger openings of bracket base over the lug nuts. Then rotate the bracket counter-clockwise.

Insert bracket locking tabs into the cavity of the bracket base. Thread nut onto the threaded bolt.

Align holes in the Simulator or Cover-Up Hub Cover with the holes in the bracket and secure. It's quick and simple.

### MODEL # | FOR 6-LUG BALL SEAT WHEELS
