

REALWHEELS CORPORATION

COMPLETE CONTRACT MANUFACTURING

I.D.E.A. DIVISION

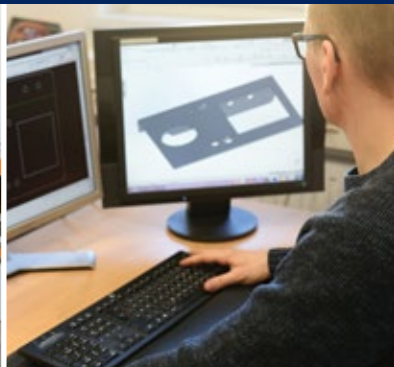

The I.D.E.A. division (Innovative Design & Engineering Applications) is the branch of RWC that assists with various levels of design, engineering and fabrication. We have effectively helped customers with tasks as simple as basic parts manufacturing, or as detailed as complete new product concepts and development. Customer satisfaction is our primary strategy for customer service.

FIRE TRUCK FEATURING RWC ACCESSORIES

MANUFACTURING

TRUCK OEMS • BODY BUILDERS • UPFITTERS

PROBLEM SOLVERS

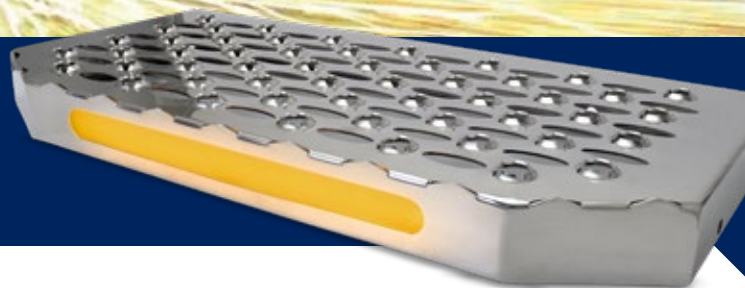

We are passionate problem solvers, consistently dedicated to finding the best design and manufacturing solutions for our clients. We stand behind our products 100%.

FRAME

WELDING

Our skilled welders have years of experience in a variety of materials and processes.

All welding fixtures and jigs are designed and built in-house, which greatly improves efficiency.

REAR LIGHT CASING

FENDERETTE

TUBE BENDING • METAL SPINNING • WELDING • ROLL FORMING

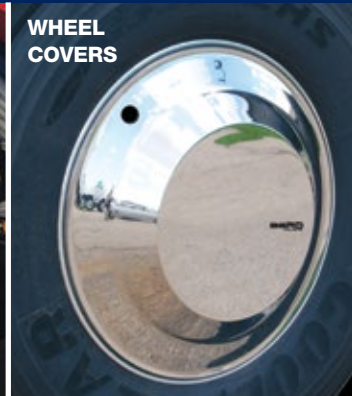

ROLL FORMING

OEMs look to RealWheels to economically roll form mid to high volumes of close tolerance parts with a broad range of geometries.

FENDERETTE

WHEEL COVERS

METAL SPINNING

RealWheels' core business started with metal spinning. We carry that tradition into every part we spin. The metal takes shape over custom forms under the careful craftsmanship of skilled hands.

QUALITY, INNOVATION AND EXCELLENCE SINCE 1981

- Established in 1981
- 40,000 sq. ft. facility
- Numerous U.S. patents for our uniquely engineered mounting systems and cover designs
- Serving the commercial vehicle industry with product innovations pertinent to the continual changes we experience
- We stand behind our products 100%
- Outstanding customer service
- Our team is involved in many heavy truck industry groups such as TMC, FAMA, NTEA and Combat Challenge
- 99% of our products are proudly Made in the USA
