dual wheels with  
18 round holes

## **RW1602-18SAXK**

2012+ 3500  
Sprinter-EZ 16" dual  
wheels with 18 round  
holes and includes  
valve extensions

Sprinter simulator design is patterned with the same number of cutouts as the factory wheel and is approved by Daimler Commercial.

- We've designed our EZ line of wheel simulators so they are EZ to install, EZ to clean and EZ to maintain. Plus they are offered at a lower price, which makes them EZ to purchase.
- Rear simulators have a new, extremely low center cap design that eliminates obstructions when servicing and creates the easiest wheel simulators to maintain and clean.
- High quality, heavy-gauge stainless steel.
- Patented mounting system — no lug nuts to remove.
- Sprinter & custom emblems available.

## Single Wheels

Cut-Out Patterns Match Factory  
Wheels for Improved Air Flow!

2004-2006  
2500 Sprinter
